DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-5, 7-13, 27, 34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. It is not clear wherein the specification teaching of the metal agent includes at least one metal B-diketonate ligand.

Election/Restrictions

3. Applicant's request for rejoining of the product and process claims has not been considered because in order to rejoin the non-elected process claims, they must depend from or require all the limitations of an allowable product claim (please see MPEP 821.04(b)). However, the instant process claim 18 cites a method to form a CMP material not a CMP pad as cited in product claim 1. Therefore, it does not require all the limitations of the product claim.

Allowable Subject Matter

4. Claims 1-5, 7-13, 27, 34 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 1765

Claims 1-5, 7-13, 27, 34 are allowed for the reason set forth in the Office Action sent 10/17/05.
